

Investor Presentation

December 2020

Disclaimer

This presentation has been prepared by FinVolution Group (the “Company”) pursuant to Section 5(d) of the U.S. Securities Act of 1933, as amended (the “Securities Act”) solely for informational purposes and is not an offer to buy or sell or a solicitation of an offer to buy or sell any security or instrument or to participate in any investment activity or trading strategy, nor may it or any part of it form the basis of or be relied on in connection with any contract or commitment whatsoever, in the United States or anywhere else. This presentation does not constitute legal, regulatory, accounting or tax advice to you, we recommend that you seek independent third party legal, regulatory, accounting and tax advice regarding the contents of this document.

By viewing this presentation or participating in this meeting, you acknowledge and agree that (i) the information contained in this presentation is intended for the recipient of this information only and shall not be disclosed, reproduced or distributed in any way to anyone else, (ii) no part of this presentation or any other materials provided in connection herewith may be photographed, copied, retained, taken away, reproduced or redistributed following this presentation or meeting, and (iii) all participants must return this presentation and all other materials used during this presentation or meeting to the Company at the completion of the presentation or meeting. By viewing, accessing or participating in this meeting, you agree to be bound by the foregoing limitations. Any failure to comply with these restrictions may constitute a violation of applicable securities laws. The distribution of any information herein in other jurisdictions may be restricted by law and persons into whose possession this information comes should inform themselves about, and observe, any such restrictions.

This presentation has been prepared solely for use at this meeting. The information herein is subject to change without notice and its accuracy is not guaranteed. Nothing contained in this presentation shall be relied upon as a promise or representation as to the past or future performance of the Company. Past performance does not guarantee or predict future performance. This presentation shall neither be deemed an indication of the state of affairs of the Company nor constitute an indication that there has been no change in the business affairs of the Company since the date hereof or since the dates as of which information is given herein. This presentation also does not contain all relevant information relating to the Company or its securities, particularly with respect to the risks and special considerations involved with an investment in the securities of the Company, and these materials are qualified in their entirety by reference to the detailed information appearing in the Company’s filings with the U.S. Securities and Exchange Commission.

Certain of the information included herein was obtained from various sources, including third parties, and has not been independently verified by the Company or any underwriters. By viewing or accessing the information contained in this presentation, you hereby acknowledge and agree that neither the Company, nor any of the affiliates, advisers and representatives of the Company accept any

responsibility for, or makes any representation or warranty, expressed or implied, with respect to, the truth, accuracy, fairness, completeness or reasonableness of the information contained in, and omissions from, this presentation and that neither the Company nor any of its affiliates, advisers, representatives accept any liability whatsoever for any loss howsoever arising from any information presented or contained in this presentation.

Statistical and other information relating to the general economy and the industry in which the Company is engaged contained in this presentation material has been compiled from various publicly available official or unofficial sources. The Company or any of its affiliates, advisors or representatives has not independently verified market, industry and product testing data provided by other third-party sources. These data involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such information and estimates.

This presentation also contains non-GAAP financial measures (including non-GAAP adjusted operating income and non-GAAP adjusted operating margin), which are provided as additional information to help you compare business trends among different reporting periods on a consistent basis and to enhance your overall understanding of the historical and current financial performance of the Company’s operations. These non-GAAP financial measures should be considered in addition to results prepared in accordance with the U.S. GAAP, but should not be considered a substitute for or superior to the Company’s U.S. GAAP results. In addition, the Company’s calculation of these non-GAAP financial measures may be different from the calculation used by other companies, and therefore comparability may be limited.

This presentation contains certain forward-looking statements, including statements related to industry developments and the Company’s future financial or business performance, strategies or expectations. These statements constitute “forward-looking” statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often include words such as “anticipates,” “estimates,” “expects,” “projects,” “intends,” “plans,” “believes” and words and terms of similar substance in connection with discussions of future performance. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ materially from those in the forward-looking statements as a result of various factors and assumptions, many of which are beyond the Company’s control. Neither the Company nor any of its affiliates, advisors, representatives has any obligation to, nor do any of them undertake to, revise or update the forward-looking statements contained in this presentation to reflect future events or circumstances.

Proven operating history enabled by technology

Loan facilitation model

Connecting under-served borrowers with FIs

13-year operating history

Continuous innovation

Advanced proprietary technology

Thousands of variables for credit assessment

Large user base

113mn registered users⁽¹⁾/18.6mn borrowers⁽²⁾

Successful funding transition

Shift towards 100% Institutional funds⁽³⁾

Cumulative registered users⁽¹⁾

Millions

Loan origination volume⁽⁴⁾

RMB in billions

(1) As of Sep 30, 2020.

(2) On a cumulative basis of business in Mainland China, as of Sep 30, 2020.

(3) The proportion of loans facilitated by institutional partners increased from 44.8% in 2Q19 to 100.0% in 4Q19 and later on.

(4) Loan origination volume only includes business in Mainland China.

Massive and fast-growing consumer finance opportunity

Consumer finance is under-penetrated in China:

- Consumer credit-to-GDP at **13%** vs 20% in US⁽¹⁾
- **46%** of adult population have credit records vs 81% in US⁽²⁾

Solid demand from FIs for consumer finance assets:

- Over **5,000** licensed financial institutions in China⁽³⁾
- Majority with limited experience in consumer finance

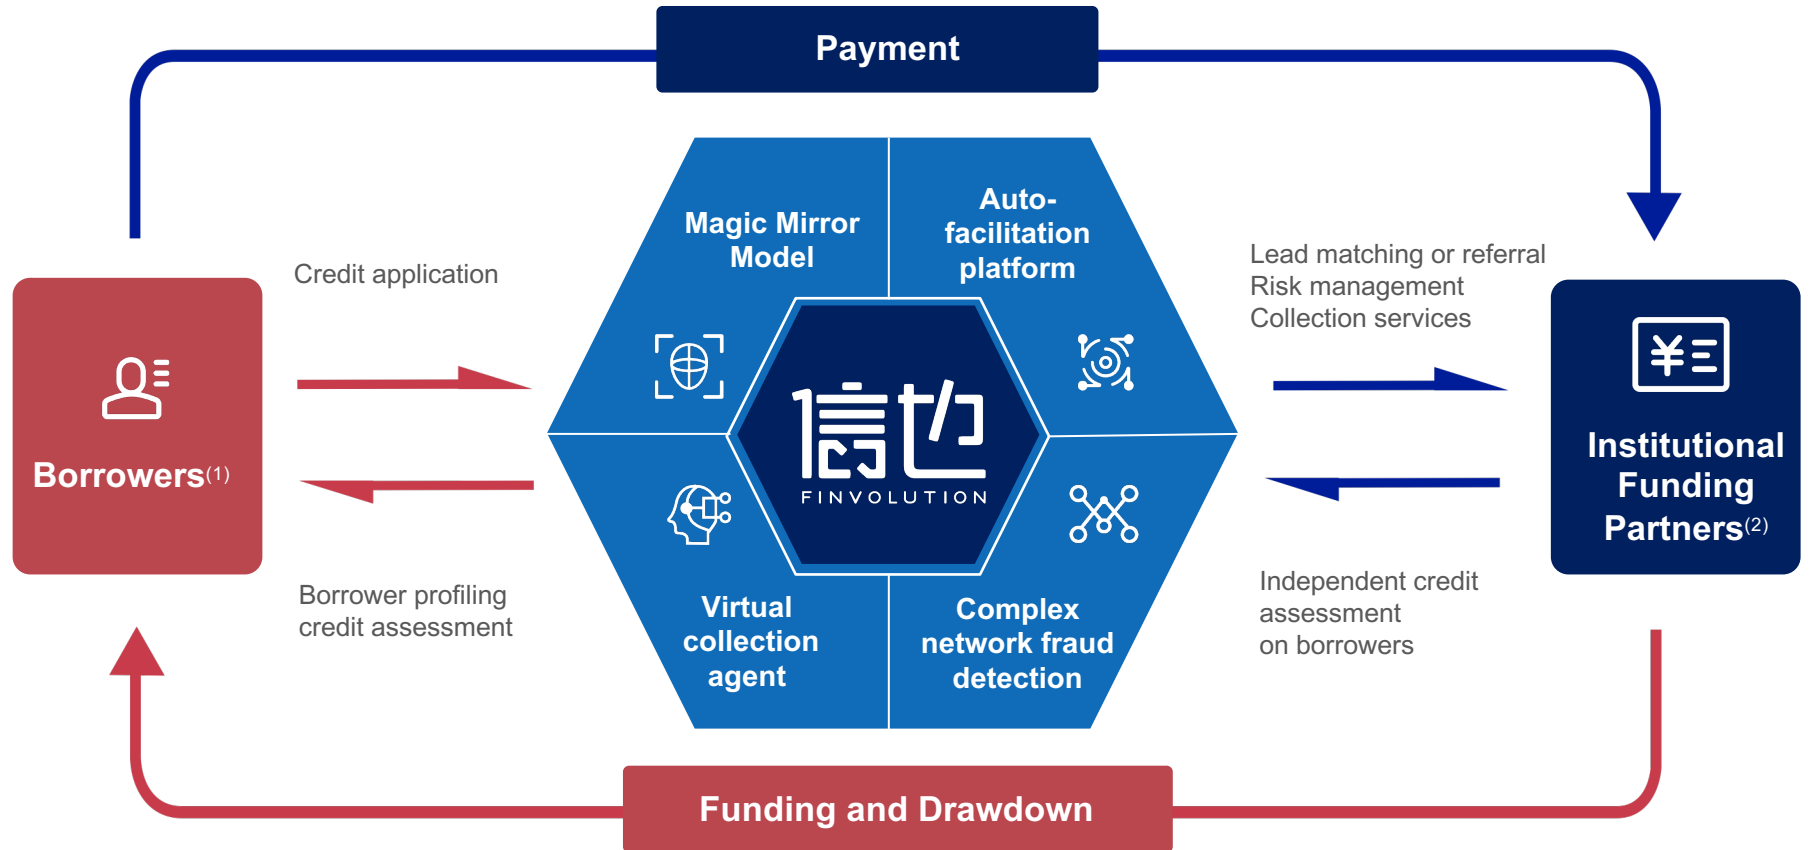

Sources:

(1) PBOC, World Bank, Federal Reserve.

(2) US: Consumer Financial Protection Bureau, May 2015; China: PBOC Credit Reference Center, 2017; FinVolution estimates.

(3) According to the speech of Guo Shuqing, Chairman of CBIRC, at the Lujiazui forum 2019.

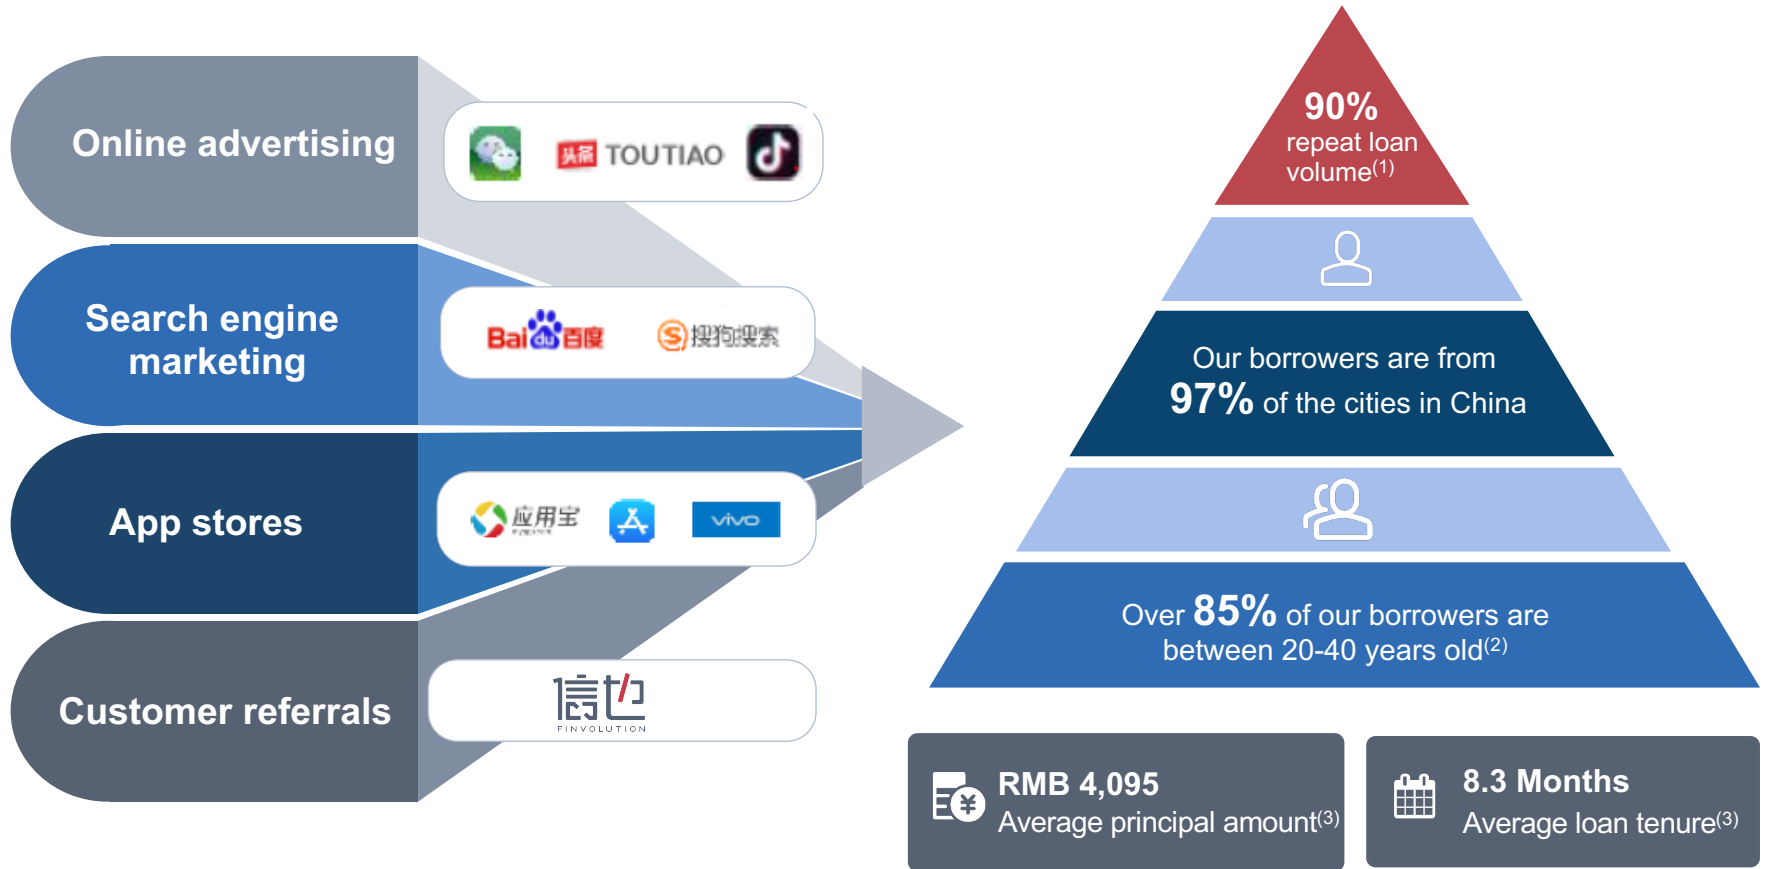

Technology enabled loan facilitation model

(1) Borrowers are mainly individuals.

(2) Institutional funding partners include banks, consumer finance companies and trusts.

Borrower acquisition through diverse online channels

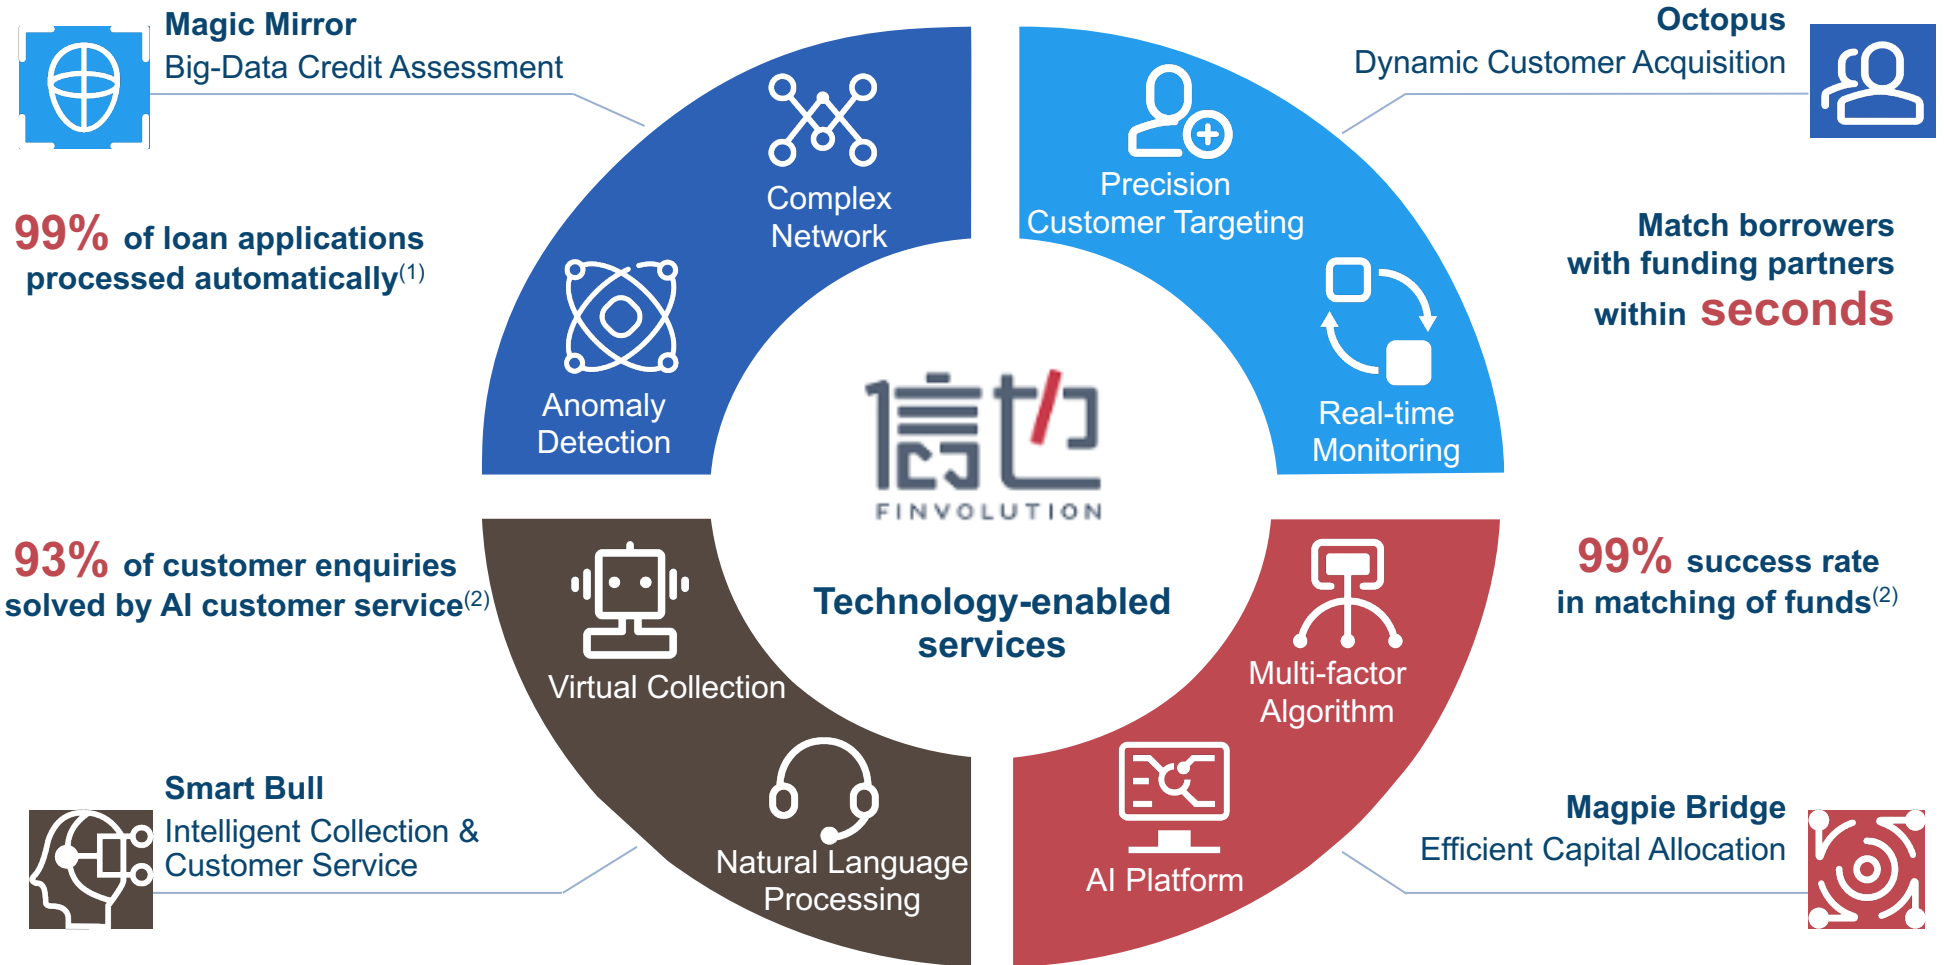

(1) % of loan volume generated by repeat borrowers. Repeat borrowers are borrowers who have successfully borrowed on our platform before in the three months ended Sep 30, 2020.

(2) Calculated based on borrowers in Mainland China whose loans were facilitated in the three months ended Sep 30, 2020.

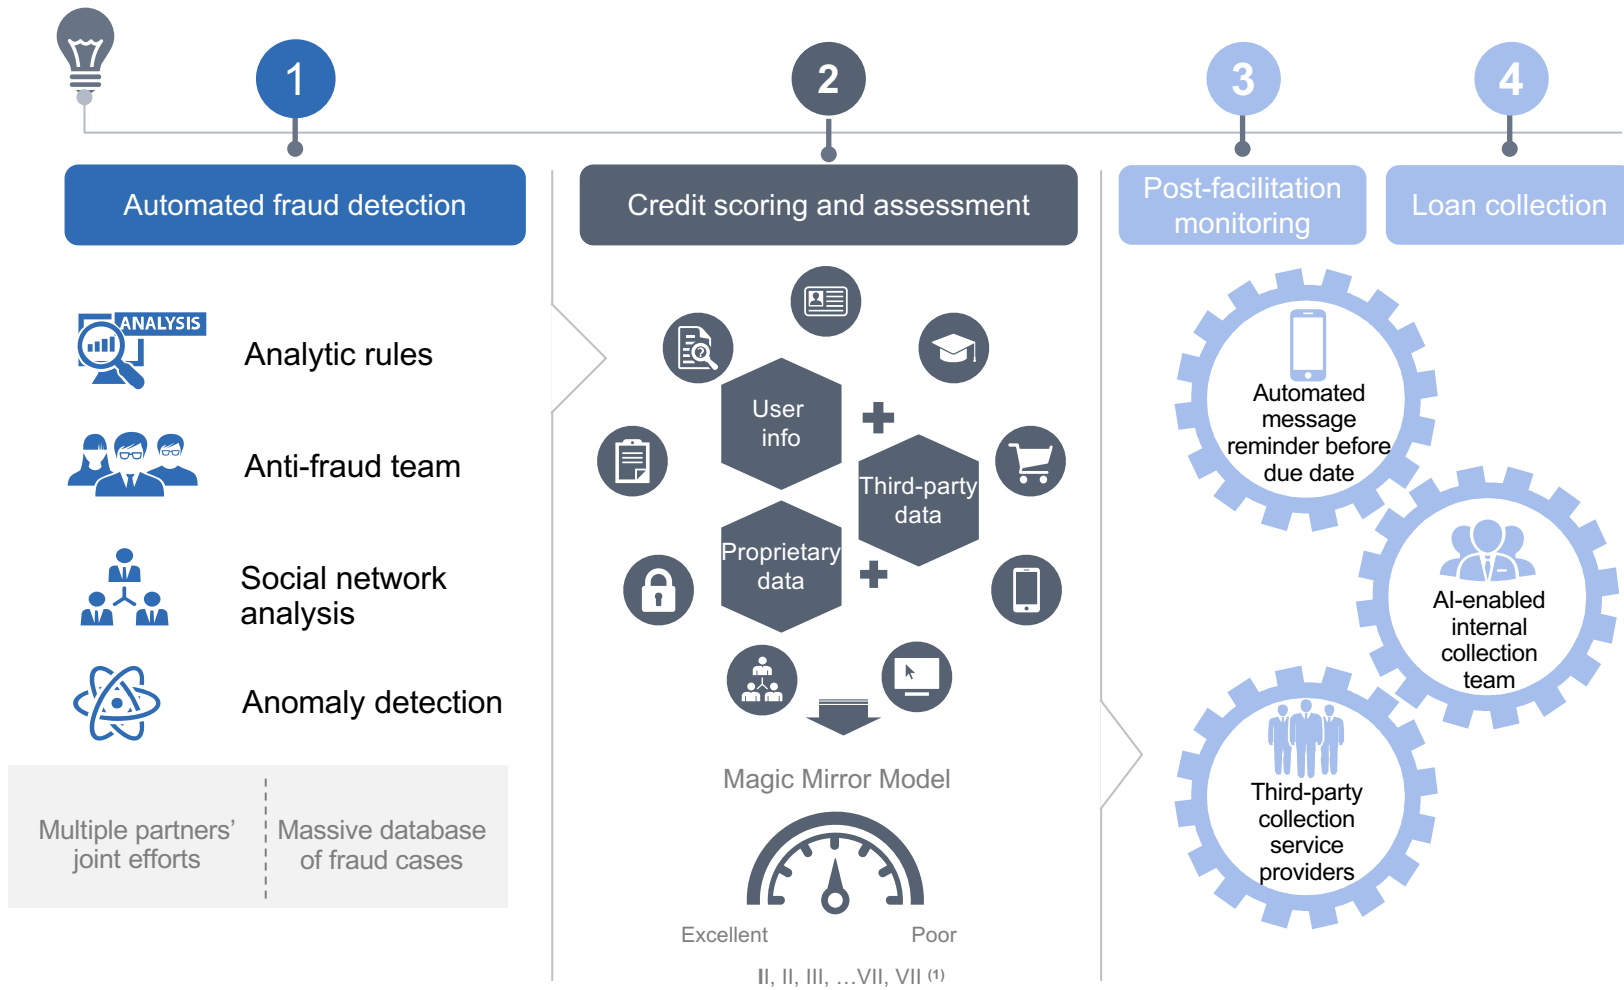

(3) Calculated based on loans originated on our marketplace in Mainland China in the three months ended Sep 30, 2020.

We leverage our innovative technologies to enable financial institutions

(1) Source: Company filings
(2) Data as of Sep 30, 2020

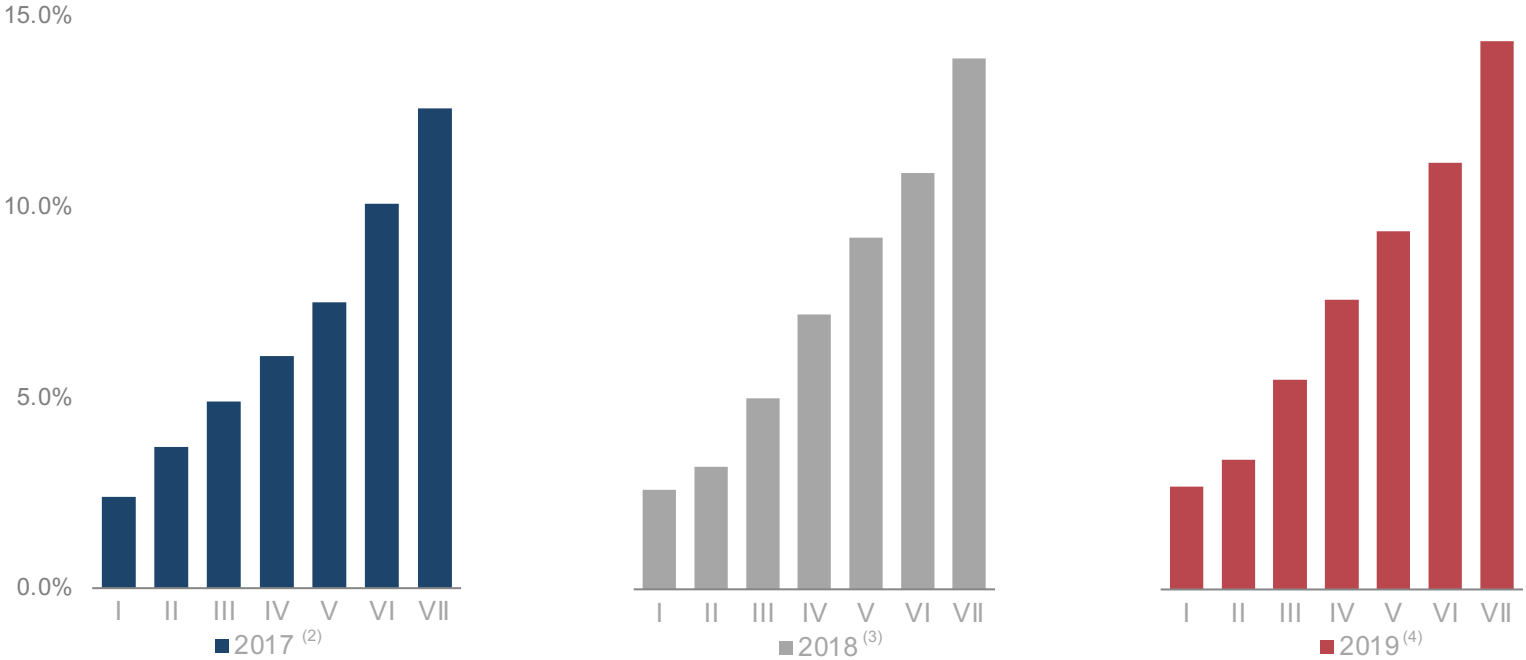

Sophisticated risk management technologies and capabilities

(1) Loan applicants with credit rating of VIII will be rejected.

Strong and consistent risk-sloping capability

Vintage delinquency rate by credit rating⁽¹⁾

(1) Credit rating refers to Magic Mirror scores, with Level I representing the lowest risk and Level VII the highest.
 (2) Vintage delinquency rate for loans facilitated during 2017 is calculated as the volume weighed average of the quarterly vintage delinquency rates at the end of the 12th month following the inception of each loan in an applicable vintage.
 (3) Vintage delinquency rate for loans facilitated during 2018 is calculated as the volume weighed average of the quarterly vintage delinquency rates at the end of the 12th month following the inception of each loan in an applicable vintage.
 (4) Represents vintage delinquency rate for loans facilitated during 2019 as of Sep 30, 2020.

Shift to better quality borrowers with improving delinquency rates

Delinquency rates by vintage⁽¹⁾

Note: Data as of Sep 30, 2020. Represents the historical cumulative 30-day plus past due delinquency rates by loan origination vintage for all loan products in Mainland China.

(1) Vintage is defined as loans facilitated during a specified time period. Delinquency rate by vintage is defined as (i) the total amount of principal for all loans in a vintage that become delinquent, less (ii) the total amount of recovered past due principal for all loans in the same vintage, and divided by (iii) the total amount of initial principal for all loans in such vintage.

Successful business model transition

Complete shift to institutional funding

Loan volume % by funding sources

Shift towards more prime borrowers

Proportion of loan volume by credit rating⁽¹⁾

(1) Credit rating refers to Magic Mirror scores, with Level I representing the lowest risk and Level VII the highest.

Our growth strategies

Deepen cooperation with institutional partners

- Diversify business models with institutional partners
- Leverage on our technologies and capabilities to enable our partners in consumer finance

Expand loan products & client segments

- Expand a range of financial products
- Develop consumption scenarios
- Broaden client segments

International expansion & investments

- Initial focus on South East Asia
- Began licensed lending operations in Indonesia, explore opportunities in Philippines and Vietnam

Wealth management

- Provide online wealth management services for mass affluent segment enabled by our strong technologies

Business outlook ⁽¹⁾

Loan origination volume

- Q4 2020 loan volume expected to be in the range of RMB18bn and 20bn.

Cost of funds on the platform

- Average cost of funds expected to decline to below 8%; cost of new funds already below 8%.

Delinquency trends

- **Leading indicators:** Day-1 delinquency rate has fallen to below 7%, and 30-day loan collection recovery rate has reached about 90%, significantly better than 2019 Q4 levels.
- Expect vintage delinquency rate for loans originated in 2020 Q2 and Q3 to be below 4%, and for new loan originations by the end of the year to decline to around 3.5%.

Operation & Financial metrics

Operating metrics

Cumulative registered users⁽¹⁾

Millions

Active borrowers⁽²⁾

Millions

Average principal amount⁽³⁾

RMB

Average loan tenure⁽³⁾

Months

(1) Cumulative number of users registered on our platform in Mainland China as at the end of each period.

(2) Represents number of borrowers in Mainland China with outstanding loan balances, excluding those who are overdue for more than 180 days, at the end of each period.

(3) Calculated based on loans originated on our platform during each period in Mainland China.

Loan origination volume and declining cost of funds on the platform

Total loan origination volume⁽¹⁾

RMB in billions

Repeat borrowing rate ⁽²⁾

Loan volume funded by institutional partners

RMB in billions

Cost of funds on the platform⁽³⁾

- (1) Total loan volume funded either by institutional partners and individual investors.
- (2) % of loan volume generated by repeat borrowers. Repeat borrowers are borrowers who have successfully borrowed on our platform before each period.
- (3) Comprehensive cost of funds of off-balance sheet loans including intermediary fees.

Operating efficiency

Operating expenses as % of operating revenue⁽¹⁾

Non-GAAP adjusted operating income⁽²⁾

RMB in millions

- (1) Operating revenues exclude guarantee income and operating expenses exclude provision for loans receivable, provision for accounts receivable and credit losses for quality assurance commitment.
- (2) -Non GAAP adjusted operating income for FY2018, which excludes share-based compensation expenses of RMB50.3 million and a write-back of provision of RMB68.6 million for expected discretionary payments to investors in investment programs protected by the Company's investor reserve funds.
 -Non GAAP adjusted operating income for FY2019, which excludes share-based compensation expenses of RMB42.2 million.
 -Non GAAP adjusted operating income for 3Q 2019, which excludes share-based compensation expenses of RMB8.9 million.
 -Non GAAP adjusted operating income for 3Q 2020, which excludes share-based compensation expenses of RMB8.6 million.

Strong balance sheet

Leverage ratio⁽¹⁾

Short-term liquidity⁽²⁾

RMB in millions

(1) Leverage ratio = Total loans outstanding on the platform / shareholders' equity

(2) Short-term liquidity= Cash and cash equivalents + short-term investments. For illustrative purpose only.

(3) Effective January 1, 2020, FinVolution Group adopted the ASC 326, Measurement of Credit Losses on Financial Instruments or "CECL", using a modified retrospective method.

(1) The table display the historical cumulative 30-day plus as of Sep 30, 2020 represent past due delinquency rates by loan origination vintage for all loan products facilitated in Mainland China through the Company's online marketplace.

Accounting policy change to CECL⁽¹⁾

The following table sets forth the impact to the financial position of the Company and retained earnings upon adoption of the standard on January 1, 2020:

RMB (in millions)	December 31, 2019	CECL adoption impact	January 1, 2020
Credit loss allowance for assets			
Quality assurance receivable	809.5	35.0	844.5
Loans receivable	316.1	303.3	619.4
Accounts receivable	145.7	142.1	287.8
Liabilities			
Quality assurance payable	4,776.2	690.1	5,466.3 ⁽²⁾
Retained earnings			
Total pre-tax impact		1,170.5	
Tax effects		(287.5)	
		883.0	

(1) Effective January 1, 2020, FinVolution Group adopted the ASC 326, Measurement of Credit Losses on Financial Instruments or “CECL”, using a modified retrospective method. As a result of adopting ASC 326, the Company recognized the cumulative effect of initially applying the standard as a decrease of approximately RMB 883.0 million to the opening balances of retained earnings.

The adoption of this standard established a single credit loss model for all financial assets carried at amortized cost and certain off balance sheet credit exposures (i.e. guarantees). Under ASC 326, the Company is required to record the expected credit losses of the financial assets and off balance sheet credit exposures upon initial recognition, which is typically earlier than the old standard. Also, the CECL framework requires our estimate to reflect expected credit losses over the full expected life and considers expected future changes in the macroeconomic conditions. Further, before the adoption of ASC 326, guarantee liabilities subsequent to initial recognition, was recorded at the higher of our stand ready obligation (ASC 460 component) and the contingent component (ASC 450 component). Upon adoption of ASC 326, the expected credit losses, which replaces ASC 450 component, was recorded separately from and in addition to the ASC 460 component upon initial recognition. Subsequently, the ASC 460 component is released as revenue systematically over the term of the loans and the expected credit losses is trued up based on expected life time credit losses of the loans covered by the quality assurance commitments at each balance sheet date.

(2) Upon adoption of ASC 326, quality assurance payable is separated into deferred guarantee income (i.e. the unamortized ASC 460 component of guarantee) amounting to 1,873.3 million and expected credit losses for quality assurance commitment (i.e. CECL liability) amounting to 3,593.0 million.
