Mr. Feng Zhang, Chief Executive Officer of FinVolution, commented, "Our strong technological foundation and strategic transition towards better-quality borrowers enabled us to flexibly navigate challenges and deliver solid, consistent results, highlighted by our eighth consecutive quarter of growth in total transaction volume. In the first quarter of 2022, we achieved record-setting total transaction volume of RMB39.7 billion, representing a year-over-year increase of 48.1% and a sequential increase of 1.8%.

"Our operations aimed at empowering small business owners also maintained solid growth momentum. During the quarter, we served over 507 thousand small business owners across multiple sectors, including retail, wholesale and service industries, among others, representing an increase of 66.2% from the same period in 2021. Meanwhile the transaction volume facilitated for small business owners increased 122.7% year-over-year to a record high of RMB9.8 billion, contributing 24.7% of total transaction volume for the same period.

"With the COVID-19 situation largely under control in Southeast Asia our transaction volume reached RMB0.86 billion in our international markets during the first quarter of 2022, representing an increase of 13.2% year-over-year. It is particularly noteworthy that the outstanding loan balance for our international markets reached RMB0.36 billion, representing an increase of 44.0% year-over-year and 9.1% sequentially. We will continue to cultivate our partnerships with different players in the region while introducing new products and services to improve our offering mix.

"Last but not least, I would like to share that since Sustainalytics awarded us a "low-risk" rating last quarter, additional independent ESG platforms such as ESG Enterprise, have included us in their ESG ratings, providing our stakeholders with even greater insight into our ESG goals. We firmly believe that our long-term strategic plan, including financial, technological and ESG goals, will lead FinVolution to its next phase of growth and prosperity," concluded Mr. Zhang.

Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "Driven by our consistent efforts in R&D, continuous development of our chain of technologies and improvement across multiple operational metrics, our net revenues for the first quarter rose to RMB2.4 billion, an increase of 15.8% year-over-year. More encouragingly, we have also delivered a strong Non-GAAP operating income<sup>12</sup> of RMB602.1 million and maintained a substantial balance sheet with RMB10.8 billion in total shareholder's equity as of March 31, 2022.

"In addition, our unrestricted cash and short-term liquidity position increased to RMB6.3 billion from RMB5.6 billion at the end of the previous quarter, representing a sequential increase of 12.5%, further demonstrating the robustness of our balance sheet. Supported by our strong financial position, effective business strategy and execution, we are confident that we can continue to unlock tremendous value for all stakeholders," concluded Mr. Xu.

## First Quarter 2022 Financial Results

**Net revenue** for the first quarter of 2022 increased by 15.8% to RMB2,446.8 million (US\$386.0 million) from RMB2,112.9 million in the same period of 2021, primarily due to the increase in loan facilitation service fees and post facilitation service fees.

*Loan facilitation service fees* increased by 31.5% to RMB1001.4 million (US\$158.0 million) for the first quarter of 2022 from

RMB761.6 million in the same period of 2021, primarily due to the increase in transaction volume, partially offset by the decrease in service fee rates.

*Post-facilitation service fees* increased by 102.5 % to RMB458.4million (US\$72.3 million) for the first quarter of 2022 from RMB226.4 million in the same period of 2021, primarily due to the increase in outstanding loans served by the Company and the rolling impact of deferred transaction fees.

*Guarantee income* was RMB612.1million (US\$96.6 million) for the first quarter of 2022 compared to RMB659.2 million in the same period of 2021, as a result of improved asset quality. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment. As the Company transitioned its business towards better quality borrowers, the fair value of quality assurance commitment upon loan origination decreased due to better asset quality resulting in the decrease in guarantee income.

*Net interest income* decreased by 4.0% to RMB269.1million (US\$42.5million) for the first quarter of 2022, from RMB280.4 million in the same period of 2021, primarily due to the decrease in interest rates, partially offset by the increase in the outstanding loan balance of on balance sheet loans.

*Other revenue* decreased by 42.9 % to RMB105.8 million (US\$16.7 million) for the first quarter of 2022 from RMB185.2 million in the same period of 2021, primarily due to the decrease in customer referral fees from other third-party platforms.

**Origination, servicing expenses and other cost of revenue** increased by 20.5% to RMB497.7 million (US\$78.5 million) for the first quarter of 2022 from RMB413.1 million in the same period of 2021, primarily due to the increase in employees' expenditures and fees paid to the third-party service providers as a result of the increase in loan origination volume.

**Sales and marketing expenses** decreased by 0.7% to RMB332.0 million (US\$52.4 million) for the first quarter of 2022 from RMB334.2 million in the same period of 2021.

**Research and development expenses** increased by 19.8% to RMB112.4 million (US\$17.7 million) for the first quarter of 2022, from RMB93.8 million in the same period of 2021, due to the increased investments in technology development.

**General and administrative expenses** decreased by 19.1% to RMB91.1 million (US\$14.4 million) for the first quarter of 2022 compared to RMB112.6 million in the same period of 2021, due to the increase in operating efficiency.

**Provision for accounts receivable and contract assets** increased by 83.7% to RMB73.1 million (US\$11.5 million) for the first quarter of 2022 compared to RMB39.8 million in the same period of 2021, as a result of the increase in outstanding loan balances, partially offset by lower default rate as a result of the transition to better quality borrowers.

**Provision for loans receivable** was RMB99.5 million (US\$15.7 million) for the first quarter of 2022, compared to RMB18.8 million in the same period of 2021. The increase was primarily due to the increase in loan volume of on balance sheet loans, partially offset by lower default rate as a result of the transition to better quality borrowers.

**Credit losses for quality assurance commitment** were RMB659.0 million (US\$104.0 million) for the first quarter of 2022 compared to RMB444.9 million in the same period of 2021, primarily due to the increase in outstanding loan balances, partially offset by lower default rate as a result of the transition to better quality borrowers.

**Operating profit** decreased by 11.2% to RMB582.0 million (US\$91.8 million) for the first quarter of 2022 from RMB655.7 million in the same period of 2021.

**Non-GAAP adjusted operating income**, which excludes share-based compensation expenses before tax, was RMB602.1 million (US\$95.0 million) for the first quarter of 2022, representing a decrease of 10.3% from RMB671.2 million in the same period of 2021.

**Other income** increased by 19.0% to RMB50.8 million (US\$8.0 million) for the first quarter of 2022 from RMB42.7 million in the same period of 2021, mainly due to the increase in government subsidy, partially offset by a decrease in investment gains.

**Income tax expense** was RMB98.6 million (US\$15.6 million) for the first quarter of 2022, compared to income tax expenses of RMB105.7 million in the same period of 2021, mainly due to decline in operating profit.

**Net profit** was RMB534.3 million (US\$84.3 million) for the first quarter of 2022, compared to RMB592.8 million in the same period of 2021.

**Net profit attributable to ordinary shareholders of the Company** was RMB534.7 million (US\$84.3 million) for the first quarter of 2022, compared to RMB590.4 million in the same period of 2021.

**Diluted net profit per ADS** was RMB1.81 (US\$0.29) and **diluted net profit per share** was RMB0.36 (US\$0.06), a decrease of 9.5% year-over-year. **Non-GAAP diluted net profit per ADS** was RMB1.88 (US\$0.30) and **Non-GAAP diluted net profit per share** was RMB0.38 (US\$0.06), a decrease of 8.3% year-over-year. Each ADS represents five Class A ordinary shares of the Company.

As of March 31, 2022, the Company had cash and cash equivalents of RMB3,621.0 million (US\$571.2 million) and short-term investments mainly in wealth management products of RMB2,689.6 million (US\$424.3 million).

## Business Outlook

Given COVID-19's resurgence in China since the beginning of 2022, the Company will continue to closely monitor the pandemic and remain vigilant in its business operations. As such, the Company holds a cautious view on its operations and anticipates its transaction volume in the second quarter of 2022, to be in the range of RMB40.0 billion to RMB41.0 billion, representing a year-over-year increase of 19.8% to 22.8%.

The above forecast is based on the current market conditions and reflects the Company's current preliminary views and expectations on market and operational conditions and the regulatory and operating environment, as well as customer and institutional investor demands, all of which are subject to change.

## Shares Repurchase Program Update

On November 17, 2021, the board of directors of the Company approved an extension of the Company's existing US\$60 million share repurchase program for another twelve months, effective from January 1, 2022, through December 31, 2022. As of April 30, 2022, in combination with the Company's previous repurchase programs, the Company had repurchased its own Class A ordinary shares in the form of ADSs in a total aggregate value of approximately US\$147.2 million. The share repurchase program shall be subject to general business conditions and market conditions.
