Mr. Feng Zhang, Chief Executive Officer of FinVolution, commented, "Together with the Company's ongoing transition towards better quality borrowers in both domestic and international markets coupled with our long-term goal of financial inclusion, these advantages further contributed to our growth momentum in this challenging quarter. Encouragingly, our total transaction volume continuously increased for the ninth consecutive quarter, reaching RMB41.5 billion and representing a year-over-year increase of 24.3% and a quarter-over-quarter increase of 4.5%".

"We also remained committed towards supporting small business owners during this challenging period. During the second quarter, we served over 500 thousand small business owners across a variety of industries such as wholesale, retail and manufacturing, among others, representing an increase of 22.8% from the same period of 2021. Transaction volume for this business further increased 67.7% year-over-year to a new record high of RMB10.4 billion in the second quarter of 2022, contributing 25.1% of total transaction volume in the same period".

With Covid-19 policies easing in the Southeast Asia region, transaction volume in our international markets increased to RMB0.91 billion in the second quarter of 2022. More excitingly, outstanding loan balances for our international markets increased to RMB0.48 billion as of June 30, 2022, representing a year-over-year increase of 60.0% and a quarter-over-quarter increase of 33.3%.

"Last but not least, we continued to make strides in improving our ESG management practices and advancing our ESG initiatives during the quarter. Our recently distributed fourth annual ESG report of the Company, highlights our ESG policies and accomplishments in 2021 as well as our ongoing endeavors. We will continue to reinforce our ESG engagement and responsibilities at multiple levels," concluded Mr. Zhang.

Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "Consistent improvements in numerous operational metrics across multiple market cycles clearly illustrate the effectiveness of our technological refinements. Bolstered by these strengths, our net revenues for the second quarter grew to RMB2.7 billion, an increase of 11.8% year-over-year."

"Even more encouragingly, we also delivered a strong non-GAAP adjusted operating income<sup>12</sup> of RMB681.5 million and maintained a substantial balance sheet with RMB11.4 billion in total shareholders' equity as of June 30, 2022. Supported by a strong financial position, we are well prepared to capture both existing and new opportunities in the markets in which we operate," concluded Mr. Xu.

## Second Quarter 2022 Financial Results

**Net revenue** for the second quarter of 2022 increased by 11.8% to RMB2,666.0 million (US\$398.0 million) from RMB2,384.1 million in the same period of 2021, primarily due to the increase in loan facilitation service fees and post facilitation service fees.

**Loan facilitation service fees** increased by 10.5% to RMB1,052.1 million (US\$157.1 million) for the second quarter of 2022 from RMB952.4 million in the same period of 2021. This increase was primarily due to the increase in transaction volume, partially offset by the decrease in service fee rates.

**Post-facilitation service fees** increased by 61.1% to RMB482.8 million (US\$72.1 million) for the second quarter of 2022 from RMB299.6 million in the same period of 2021, primarily due to the increase in outstanding loans served by the Company and the rolling impact of deferred transaction fees.

**Guarantee income** was RMB709.5 million (US\$105.9 million) for the second quarter of 2022 compared to RMB665.7 million in the same period of 2021. This increase was primarily due to the increased outstanding loan balance of off-balance sheet loans, partially offset by the improved asset quality. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment. As the Company transitioned its business towards better quality borrowers, the fair value of quality assurance commitment upon loan origination decreased due to better asset quality.

**Net interest income** decreased by 8.3% to RMB282.9 million (US\$42.2 million) for the second quarter of 2022, from RMB308.5 million in the same period of 2021. This decrease was primarily due to the decrease in interest rates, partially offset by the increase in the outstanding loan balance of on balance sheet loans.

**Other revenue** decreased by 12.2% to RMB138.6 million (US\$20.7 million) for the second quarter of 2022 from RMB157.9 million in the same period of 2021, primarily due to the decrease in customer referral fees from other third-party platforms.

**Origination, servicing expenses and other costs of revenue** increased by 16.4% to RMB529.7 million (US\$79.1 million) for the second quarter of 2022 from RMB455.0 million in the same period of 2021, primarily due to the increase in employees' expenditures and fees paid to the third-party service providers as a result of the increase in loan origination volume.

**Sales and marketing expenses** decreased by 30.9% to RMB327.1 million (US\$48.8 million) for the second quarter of 2022 from RMB473.2 million in the same period of 2021 as a result of the decreased investments in the acquisition of new borrowers on the Company's platform due to Covid-19 resurgence in China.

**Research and development expenses** increased by 10.9% to RMB116.0 million (US\$17.3 million) for the second quarter of 2022, from RMB104.6 million in the same period of 2021, due to the increased investments in technology development.

**General and administrative expenses** decreased by 24.0% to RMB95.8 million (US\$14.3 million) for the second quarter of 2022 compared to RMB126.1 million in the same period of 2021, primarily due to the increase in operating efficiency.

**Provision for accounts receivable and contract assets** increased by 99.2% to RMB94.4 million (US\$14.1 million) for the second quarter of 2022 compared to RMB47.4 million in the same period of 2021. This increase was primarily due to the increase in outstanding loan balances, partially offset by a lower expected default rate as a result of the transition to better quality borrowers.

**Provision for loans receivable** was RMB59.1 million (US\$8.8 million) for the second quarter of 2022, compared to RMB81.9 million in the same period of 2021. The decrease was primarily due to a lower-than-expected default rate as a result of the transition to better quality borrowers, partially offset by the increase in outstanding loan balance of on balance sheet loans.

**Credit losses for quality assurance commitment** were RMB787.1 million (US\$117.5 million) for the second quarter of 2022 compared to RMB391.1 million in the same period of 2021. This increase was primarily due to the increase in outstanding loan balances, partially offset by lower expected default rate as a result of the transition to better quality borrowers.

**Operating profit** decreased by 6.8% to RMB656.7 million (US\$98.0 million) for the second quarter of 2022 from RMB704.7 million in the same period of 2021.

**Non-GAAP adjusted operating income**, which excludes share-based compensation expenses before tax, was RMB681.5 million (US\$101.7 million) for the second quarter of 2022, representing a decrease of 6.1% from RMB726.1 million in the same period of 2021. **Non-GAAP net profit attributable to FinVolution Group** was RMB606.0 million (US\$90.5 million) for the second quarter of 2022, representing a decrease of 6.5% from RMB647.8 for the same period of 2021.

**Other income** increased by 81.8% to RMB46.9 million (US\$7.0 million) for the second quarter of 2022 from RMB25.8 million in the same period of 2021, mainly due to the increase in government subsidy and investment gains.

**Income tax expense** was RMB118.4 million (US\$17.7 million) for the second quarter of 2022, compared to income tax expenses of RMB110.1 million in the same period of 2021. This increase was mainly due to a change in preferential tax rate for certain qualified subsidiaries, partially offset by the decline in pre-tax profit.

**Net profit** was RMB585.2 million (US\$87.4 million) for the second quarter of 2022, compared to RMB620.4 million in the same period of 2021.

**Net profit attributable to ordinary shareholders of the Company** was RMB581.2 million (US\$86.8 million) for the second quarter of 2022, compared to RMB626.4 million in the same period of 2021.

**Diluted net profit per ADS** was RMB1.98 (US\$0.30) and **diluted net profit per share** was RMB0.40 (US\$0.06), a decrease of 6.2 % year-over-year. **Non-GAAP diluted net profit per ADS** was RMB2.06 (US\$0.31) and **non-GAAP diluted net profit per share** was RMB0.41 (US\$0.06), a decrease of 5.1% year-over-year. Each ADS represents five Class A ordinary shares of the Company.

As of June 30, 2022, the Company had cash and cash equivalents of RMB4,277.3 million (US\$638.6 million) and short-term investments mainly in wealth management products of RMB907.3 million (US\$135.5 million).

## Business Outlook

Given COVID-19's resurgence in China since the beginning of 2022, the Company will continue to closely monitor the pandemic situation and remain vigilant in its business operations. As such, the Company holds a cautious view of its operations and anticipates its transaction volume in the third quarter of 2022, to be in the range of RMB44.0 billion to RMB45.0 billion, representing a year-over-year increase of 15.5% to 18.1%.

The above forecast is based on the current market conditions and reflects the Company's current preliminary views and expectations on market and operational conditions and the regulatory and operating environment, as well as customer and institutional investor demands, all of which are subject to change.

## Shares Repurchase Program Update

On August 21, 2022, the board of directors of the Company approved the expansion of the Company's existing share repurchase program from up to US\$60 million to up to US\$140 million and the extension for another twelve months from January 1, 2023, through December 31, 2023, which allows the Company to repurchase its own Class A ordinary shares in the form of ADSs with an aggregate value of up to US\$140 million until December 31, 2023. This share repurchase program was initially approved by the board of directors of the Company on August 24, 2020, and an extension of the term of this share repurchase program until December 31, 2022, was approved by the board of directors of the Company on November 17, 2021. The share repurchase program shall be subject to general business conditions, market conditions and applicable securities regulations.

As of July 31, 2022, in combination with the Company's historical and existing share repurchase programs, the Company had repurchased its own Class A ordinary shares in the form of ADSs with a total aggregate value of approximately US\$158.0 million.

## Use of Non-GAAP Financial Measures

We use non-GAAP adjusted operating income, non-GAAP net profit attributable to FinVolution Group, non-GAAP basic and diluted net profit per share and per ADS which are non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. We believe that these non-GAAP financial measures help identify underlying trends in our business by excluding the impact of share-based compensation expenses and expected discretionary measures. We believe that non-GAAP financial measures provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP adjusted operating profit, non-GAAP basic and diluted net profit per share and per ADS are not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider it in isolation, or as a substitute for net income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. The Company encourages investors and others to review our financial information in its entirety and not rely on a single financial measure.

For more information on this non-GAAP financial measure, please see the table captioned "Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.
