Mr. Tiezheng Li, Chief Executive Officer of FinVolution, commented, "In line with our Local Focus, Global Outlook strategy, we had cumulatively served 30.7 million borrowers across China, Indonesia and the Philippines as of the end of the first quarter of 2024. Our first quarter performance highlights our strategy's effectiveness as well as its flexibility. Transaction volume in the China market reached RMB46.1 billion, up 10.3% year-over-year, while outstanding loan balance increased to RMB64.0 billion, up 4.4% year-over-year.

"Our international markets continued to deliver solid growth with transaction volume reaching RMB2.21 billion, up 40.8% year-over-year, while outstanding loan balance further expanded to RMB1.27 billion, up 33.7% year-over-year, demonstrating our ability to capture opportunities in various countries," concluded Mr. Li.

Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "Our financial performance improved progressively with net revenues for the quarter reaching RMB3,165.1 million (US\$438.4 million), up 3.8% year-over-year. Notably, contributions from international revenue grew to RMB594.8 million (US\$82.4 million), up 32.9% year-over-year, and representing 18.8% of total revenue. Our total liquidity position as of March 31, 2024 stood at RMB8,535.3 million (US\$1,182.1 million), up 10.1% year-over-year.

"As part of our commitment to consistently return value to shareholders, we deployed US\$27.2 million in the first quarter of 2024 to repurchase our shares on the secondary market. Cumulatively, we have returned a total of US\$632.2 million to our shareholders through our capital return program since 2018, demonstrating our consistent and sustainable commitment to our shareholders," concluded Mr. Xu.

First Quarter 2024 Financial Results

Net revenue for the first quarter of 2024 was RMB3,165.1 million (US\$438.4 million), compared with RMB3,050.6 million for the same period of 2023. This increase was primarily due to the increase in guarantee income and other revenue.

Loan facilitation service fees was RMB985.9 million (US\$136.6 million) for the first quarter of 2024, compared with RMB1,168.3 million for the same period of 2023. This decrease was primarily due to the decrease in service fee rates, partially offset by the increase in transaction volume.

Post-facilitation service fees was RMB465.2 million (US\$64.4 million) for the first quarter of 2024, compared with RMB487.2 million for the same period of 2023. This decrease was primarily due to the decrease in service fee rates and the rolling impact of deferred transaction fees.

Guarantee income was RMB1,346.1 million (US\$186.4 million) for the first quarter of 2024, compared with RMB986.5 million for the same period of 2023. This increase was primarily due to the increased outstanding loan balance of off-balance sheet loans, higher guarantee rates and the rolling impact of deferred guarantee income. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment.

Net interest income was RMB231.3 million (US\$32.0 million) for the first quarter of 2024, compared with RMB285.6 million for the same period of 2023. This decrease was primarily due to the decrease in the average outstanding loan balances of on-balance sheet loans.

Other revenue was RMB136.5 million (US\$18.9 million) for the first quarter of 2024, compared with RMB123.1 million for the same period of 2023. This increase was primarily due to the increase in customer referral fees from financial institutions.

Origination, servicing expenses and other costs of revenue was RMB539.6 million (US\$74.7 million) for the first quarter of 2024, compared with RMB512.4 million for the same period of 2023. This increase was primarily due to the increase in facilitation costs and loan collection expenses as a result of higher transaction volume.

Sales and marketing expenses was RMB449.2 million (US\$62.2 million) for the first quarter of 2024, compared with RMB397.1 million for the same period of 2023, as a result of our more proactive customer acquisition efforts focusing on better quality borrowers in both China and the international markets.

Research and development expenses was RMB120.5 million (US\$16.7 million) for the first quarter of 2024, compared with RMB126.2 million for the same period of 2023. This decrease was primarily due to the increase in technology development efficiency.

General and administrative expenses was RMB82.3 million (US\$11.4 million) for the first quarter of 2024, compared with RMB85.4 million for the same period of 2023. This decrease was primarily due to the increase in operating efficiency and rent savings.

Provision for accounts receivable and contract assets was RMB65.7 million (US\$9.1 million) for the first quarter of 2024, compared with RMB63.2 million for the same period of 2023. This increase was primarily due to the increase in loan volume and outstanding loan balances of off-balance sheet loans.

Provision for loans receivable was RMB81.3 million (US\$11.3 million) for the first quarter of 2024, compared with RMB143.3 million for the same period of 2023. This decrease was primarily due to the decrease in the loan volume and the outstanding loan balances of on-balance sheet loans in the international markets.

Credit losses for quality assurance commitment was RMB1,198.1 million (US\$165.9 million) for the first quarter of 2024, compared with RMB980.7 million for the same period of 2023. The increase was primarily due to the increases in delinquency rates, loan volume and outstanding loan balance in the international markets.

Operating profit was RMB628.4 million (US\$87.0 million) for the first quarter of 2024, compared with RMB742.3 million for the same period of 2023.

Non-GAAP adjusted operating income, which excludes share-based compensation expenses before tax, was RMB658.7 million (US\$91.2 million) for the first quarter of 2024, compared with RMB762.6 million for the same period of 2023.

Other income was RMB31.0 million (US\$4.3 million) for the first quarter of 2024, compared with RMB82.8 million for the same period of 2023. This decrease was mainly due to the decrease in exchange gains.

Income tax expense was RMB127.5 million (US\$17.7 million) for the first quarter of 2024, compared with RMB135.2 million for the same period of 2023. This decrease was mainly due to the decrease in pre-tax profit and the change in effective tax rate.

Net profit was RMB532.0 million (US\$73.7 million) for the first quarter of 2024, compared with RMB689.8 million for the same period of 2023.

Net profit attributable to ordinary shareholders of the Company was RMB527.7 million (US\$73.1 million) for the first quarter of 2024, compared with RMB695.9 million for the same period of 2023.

Diluted net profit per ADS was RMB1.97 (US\$0.27) and **diluted net profit per share** was RMB0.39 (US\$0.05) for the first quarter of 2024, compared with RMB2.42 and RMB0.48 for the same period of 2023 respectively.

Non-GAAP diluted net profit per ADS was RMB2.08 (US\$0.29) and **non-GAAP diluted net profit per share** was RMB0.42 (US\$0.06) for the first quarter of 2024, compared with RMB2.49 and RMB0.50 for the same period of 2023 respectively. Each ADS represents five Class A ordinary shares of the Company.

As of March 31, 2024, the Company had cash and cash equivalents of RMB6,211.5 million (US\$860.3 million) and short-term investments, mainly in wealth management products and term deposit, of RMB2,323.8 million (US\$321.8 million).

Shares Repurchase Update

For the first quarter of 2024, the Company deployed a total of US\$27.2 million to repurchase its own Class A ordinary shares in the form of ADSs in the market. As of March 31, 2024, in combination with the Company's historical and existing share repurchase programs, the Company had cumulatively repurchased its own Class A ordinary shares in the form of ADSs with a total aggregate value of approximately US\$307.2 million since 2018.

Business Outlook

While the macroeconomic recovery continued to gain traction with pockets of improvement since the beginning of 2024, uncertainties persist in the markets in which we operate. The Company has observed encouraging signs of recovery and will continue to closely monitor macro conditions across our pan-Asian markets and remain prudent in our business operations. The Company reiterates its full year 2024 transaction volume guidance for the China market in the range of RMB195.7 billion to RMB205.0 billion, representing year-over-year growth of approximately 5.0% to 10.0%. At the same time, the Company expects its full year 2024 transaction volume for the international markets to be in the range of RMB9.4 billion to RMB11.0 billion, representing year-over-year growth of approximately 20.0% to 40.0%.

The above forecast is based on the current market conditions and reflects the Company's current preliminary views and expectations on market and operational conditions and the regulatory and operating environment, as well as customers' and institutional partners' demands, all of which are subject to change.

Use of Non-GAAP Financial Measures

We use non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS which are non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. We believe that these non-GAAP financial measures help identify underlying trends in our business by excluding the impact of share-based compensation expenses and expected discretionary measures. We believe that non-GAAP financial measures provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider it in isolation, or as a substitute for net income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. The Company encourages investors and others to review our financial information in its entirety and not rely on a single financial measure.

For more information on this non-GAAP financial measure, please see the table captioned "Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.
